

Patient Educational Materials Order Form

Compliments of Crucell Vaccines

Quantity Requested

Reminder Stickers

2 cling vinyl stickers to help patients remember when to take each Vivotif® capsule — one for the refrigerator and one for the bathroom mirror.

Reminder Stickers

Orange REFRIGERATE Stickers

Florescent orange sticker to place on the Vivotif® box to remind patients to keep the capsules in the refrigerator.

Refrigerate Stickers

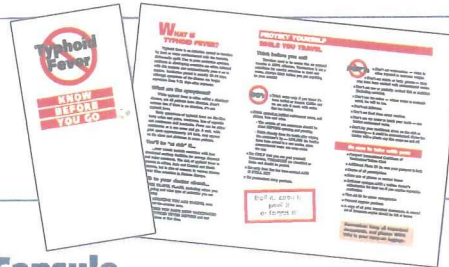

Orange Silicon Bracelet

Help your patients remember... At home, to remember to take their oral typhoid vaccine... While traveling, to remember to practice safe food and water precautions and to take their malaria medications.

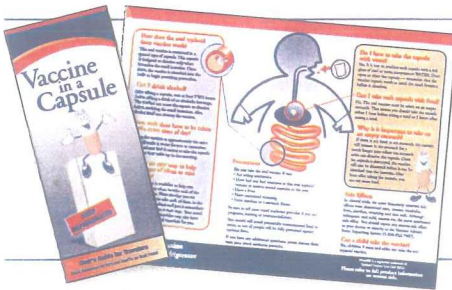

Orange Silicon Bracelet

Know Before You Go

A pamphlet providing patients with information on Typhoid Fever and practical information on things they can do to protect themselves.

Know Before You Go

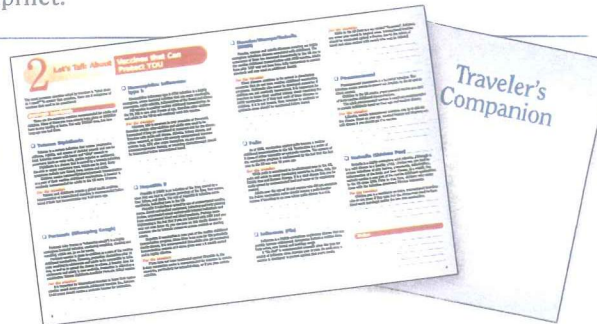

Vaccine in a Capsule

A pamphlet explains about this unique vaccine in a capsule and the reasons WHY there are special instructions for taking the capsules. Information from orange dosage card is now in this pamphlet.

Vaccine in a Capsule

Traveler's Companion

A tool for both you and your patient. Use it to guide the patient through each step of the pre-travel consultation. Space is available to make notes and check off information important to that particular traveler. Then your patient can take "his booklet" home to review. Or you can simply give it to your patient as additional educational literature.

Traveler's Companion

Traveler's Companion Intake Questionnaire

Available for those offices who do not have a specific intake form. It is designed as a separate document, that can be added to the patient's chart without the need to photocopy it.

Questionnaire

Watch Vivotif Video at OralTyphoidVaccine.com

Website Sticker

There is a new patient-oriented website, www.OralTyphoidVaccine.com. This site has animated video on everything the patient needs to know about VIVOTIF® as well as PDF's of all our patient educational literature. These stickers are available for you to put on the Vivotif® box to direct the patient to the site.
